

This points out particular items in the user interface that you will be using.

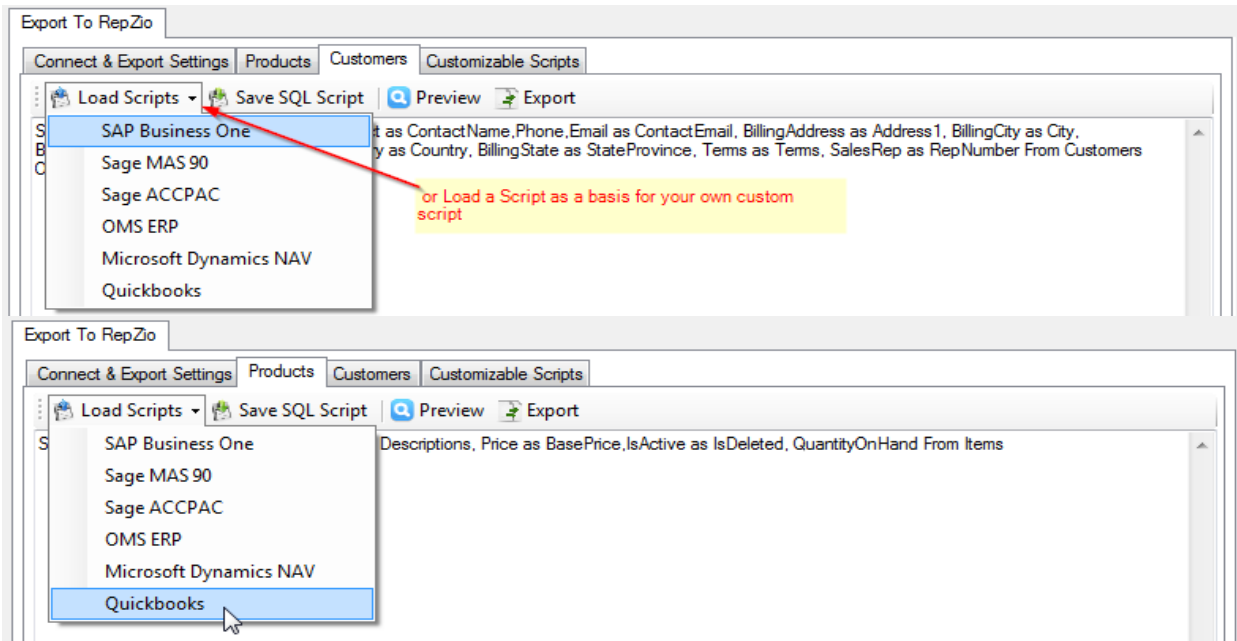

Selecting 2 will allow you to build a connection string, enter new credentials, or save currently entered credentials

You may store Products or Customer scripts in those tabs, or keep all of your scripts in the Customizable Scripts tab

BUT there are useful pre-written starting scripts for a number of ERP systems for both, Products and Customers

Export Setting

Export Name: northwinds_products **6. You MUST give script a name**

Export Filename: repzio_import_products.bt **7. A correct dropbox processing file name**

Export Path: C:\Users\Scott\Dropbox\RepZio_Northwinds **8 Your dropbox path**

Export using Scheduled Export **8 Your dropbox path**
